DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Claims 1-14 are objected to because of the following informalities: There is an error in the following language "*relative feeding of a recording head and a recording material in a first direction*" (lines 2-3 of claim 1), "*relatively feeding said recording head and said recording material in said first direction with a corrected feeding amount*" (lines 12-14 of claim 1) and "*a feeding mechanism for relatively feeding said recording materials and said recording head in said first direction*" (lines 7-9 of claim 8), because according to the description in the specification that the recording material and the recording head are being feed in different direction, therefore, it is both of the recording material and the recording head can not be relative feeding in the first direction as recited in the above language. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
